In the coming weeks, the U.S. House of Representatives will begin to debate the yearly appropriations bills to fund the federal government for fiscal year 2008. As part of that process, Members of Congress often submit appropriations requests, or earmarks, to set aside funds for particular projects. These earmarks do not add funds to the federal budget; instead they set aside funds for particular projects among the dollars allocated to federal agencies.

This process makes sense. Instead of someone sitting on the 4<sup>th</sup> floor in an office building in DC deciding where federal funds go, Members of Congress set aside a portion of funds for projects especially important to their districts. The result is – or can be – a more responsive, efficient federal government.

The earmark process has been abused in the past. Members of Congress have set aside funds for programs that turned out to personally benefit them. This Congress has worked hard to clean this up, and now all Members of Congress have to submit formal statements that they have no personal financial interest in their earmark requests.

Since January, I have been meeting with constituents to talk about the programs in their communities they feel need federal funds. The list below represents those programs that can be funded under the mandates of a federal agency.

There are many pressures on the federal budget, and with the passage of the new “pay as you go” rules instituted by the Democrats in Congress, it will be harder and harder to pay for new programs without finding the corresponding savings from other programs. Therefore, it is likely that only a few of these projects will ultimately receive earmarked funding. Still, I consider each one important to people in the Second District of Kansas, and I am proud to support them in Congress.

It is important to me that this process is as transparent as possible. After all, this is taxpayer money. This is why I am taking the unusual step of publicly releasing this list of my appropriations requests.

Regards,

Nancy Boyda  
Member of Congress

1. Title: The Children's Identification and Location Database (CHILD) Project  
Requesting Entity: Miami County Sheriff's Office  
Amount: \$25,000
2. Title: The Children's Identification and Location Database (CHILD) Project  
Requesting Entity: Atchison County Sheriff's Office  
Amount: \$25,000
3. Title: Public Safety Equipment Upgrade  
Requesting Entity: Riley County Police Department  
Amount: \$35,000
4. Title: Public Safety Equipment Upgrade  
Requesting Entity: Douglas County Sheriff's Office  
Amount: \$40,000
5. Title: Public Safety Equipment Upgrade  
Requesting Entity: Lawrence Police Department  
Amount: \$40,000
